20 April 1953

MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: SE-38, "Soviet Bloc Capabilities and Probable Courses of Action in Electromagnetic Warfare"

1. This estimate was undertaken pursuant to JEC Action 710 a (1), (11 February).
2. During the discussion of this draft, the IAC representatives indicated no reservations or intentions to dissent.
3. Two appendices have been prepared, incorporating relevant further detail from the contributions submitted by EIC and SEC respectively. It has not been possible to coordinate these appendices with the IAC representatives in time to meet the deadline for the estimate proper. We propose to submit coordinated drafts to the IAC at an early date. One of the maps from Appendix A will be submitted to the IAC at the 21 April meeting for possible inclusion in the estimate.
